## Why Choose Us

### 1. Quality Assurance:

“**GME**” is a leading fuel tanker equipment manufacturer founded in 1997. GME has more than 60% market share and is a certified supplier of PT Pertamina Patra Niaga, China Petroleum, Sinopec China, CIMC. Export markets USA, South America, Africa, Middle-East, Europe and more than 50 countries worldwide.

“**Bundor**” is a manufacturer of globe and ball valves for LPG transportation tanks and reservoirs. It was founded in 1994. The factory is located in Tianjin city, China. Their products meet international standards and are certified by renowned organizations.

“**SAP**” is a specialized company in producing steel wheel (12-24.5”), AGR wheel (14-42”) and aluminum wheels (12-28”). It was founded in 2018 and located in Jining Economic Development zone. It is a supplier to FAW Group and FOTON. The company has passed the IATF16949, INMERTO, TUV, SMITHERS, SGS, and DOT certifications to achieve the whole process control of product development, production management, quality assurance, marketing, and after-sales service.

“**ISOIL**” with more than 60 years of experience in the industry is able to better meet the needs of all customers in the field of petroleum product measurement.

### 2. Technical Expertise:

Our team has extensive experience in the oil and gas industry, ensuring tailored solutions for our clients.

### 3. Customer-Centric Approach:

We prioritize customer satisfaction, providing prompt support and after-sales service.

### 4. Competitive Pricing:

We offer competitive pricing without compromising on quality.
